

ASTRO SACRED

BUSINESS GROWTH

PERSONALISED GROWTH & EXPANSION REPORT

Prepared exclusively for

Your Name

Report prepared 09 November 2026 · Lahiri ayanamsha · Whole-sign houses

Welcome, Your Name

This report assumes something important about you: you already run a business. It is not the report that asks whether you should start, or what you should trade — that is the Vyapar Yog Report, which reads your chart for business fit, sectors and partnership before the first step. This report begins where that one ends. Its questions are the running founder's questions: When do I expand? When do I hold? Where does the cash get tight? When do I hire — and when does growth itself become the risk?

One line stands over everything here, and it is not astrology: growth mehnat, sahi nirnay aur cash discipline se aati hai — growth comes from work, from right decisions and from cash discipline. No phase in this report, and no pattern in it, promises revenue, profit or expansion that succeeds. Anyone who sells you that promise is selling, not reading. What a chart can show is pattern and timing: which stretches traditionally support bold steps, which ones punish them, and where your particular chart leaks cash or over-reaches — and every claim below is shown with the placement it comes from, so you can verify it.

How to use this report: read it once fully. Then live by four pages — your Growth Phase Map (Section 05), your 12-Month Calendar (Section 07), your Practical Growth Discipline (Section 09) and your 30-60-90 Day Plan (Section 11). The monthly review in Section 09 is the habit that ties them together.

Inside your report:

- 01 · Your Birth Chart & Operating Map — chart, Dashamsha (D10), planet and house tables
- 02 · Your Growth Scores — Growth Strength for the business, gains, partnership, capital, team and cost houses
- 03 · Growth Patterns — scaling strengths, over-expansion caution patterns, cash-flow structure, Mercury & your digital tendency
- 04 · Partnership Health Re-Check — a brief standing check (the detailed reading is in the Vyapar Yog Report)
- 05 · Your 10-Year Growth Phase Map — every period classified Expand, Stabilise or Conserve, with flags
- 06 · Year by Year — the same ten years, read as a founder should read them
- 07 · Your 12-Month Calendar & Transit Windows — month by month, with Jupiter and Saturn
- 08 · Hiring & Team Windows — when this chart supports adding people
- 09 · Practical Growth Discipline — reserve rule, stock discipline, credit policy, monthly review

- 10 · Remedies & Start Dates — traditional practices chosen for your chart
- 11 · Your 30-60-90 Day Growth Plan & Summary

SECTION 01 · YOUR CHART

Your Birth Chart & Operating Map

Your Name

Ascendant (Lagna): Virgo 28.7° · Moon sign: Taurus, Rohini pada 3 · Current period: Jupiter Mahadasha (Dec 2018 – Dec 2034), currently Jupiter–Venus, classified Expand on the growth map (growth points +8).

Your Lagna is Virgo. You are a natural analyst of money — budgets, details, small leaks found early. Service and skill-based income suit you. Your growth edge is trusting the big picture once the details check out, instead of perfecting forever.

Your Moon is in Taurus, in Rohini nakshatra, pada 3. Emotionally, you need stability — a visible reserve calms you and helps you take wise risks elsewhere. Your birth star adds its own signature: Rohini is the star of growth and beauty — wealth through steady cultivation, luxury, food, land and the arts.

Planet	Sign	Degree	House	Nakshatra	Dignity
Sun	Cancer	28.4°	11	Ashlesha 4	—
Moon	Taurus	18.9°	9	Rohini 3	exalted
Mars	Aries	27.5°	8	Krittika 1	in its own sign
Mercury	Leo	25.4°	12	Purva Phalguni 4	—
Jupiter	Cancer	5.6°	11	Pushya 1	exalted
Venus	Cancer	7.8°	11	Pushya 2	—
Saturn	Sagittarius	26.1°	4	Purva Ashadha 4	—
Rahu	Capricorn	12.8°	5	Shravana 1	—
Ketu	Cancer	12.8°	11	Pushya 3	—

Positions calculated with Swiss Ephemeris, Lahiri (Chitrapaksha) ayanamsha, whole-sign houses — the conventions used throughout this report, so any astrologer or app set to the same conventions will show the same chart.

Your chart, house by house:

House	Sign	Area of life	Lord	Lord placed in	Planets in the house
1	Virgo	Self, direction	Mercury	House 12	—
2	Libra	Capital, family wealth	Venus	House 11	—

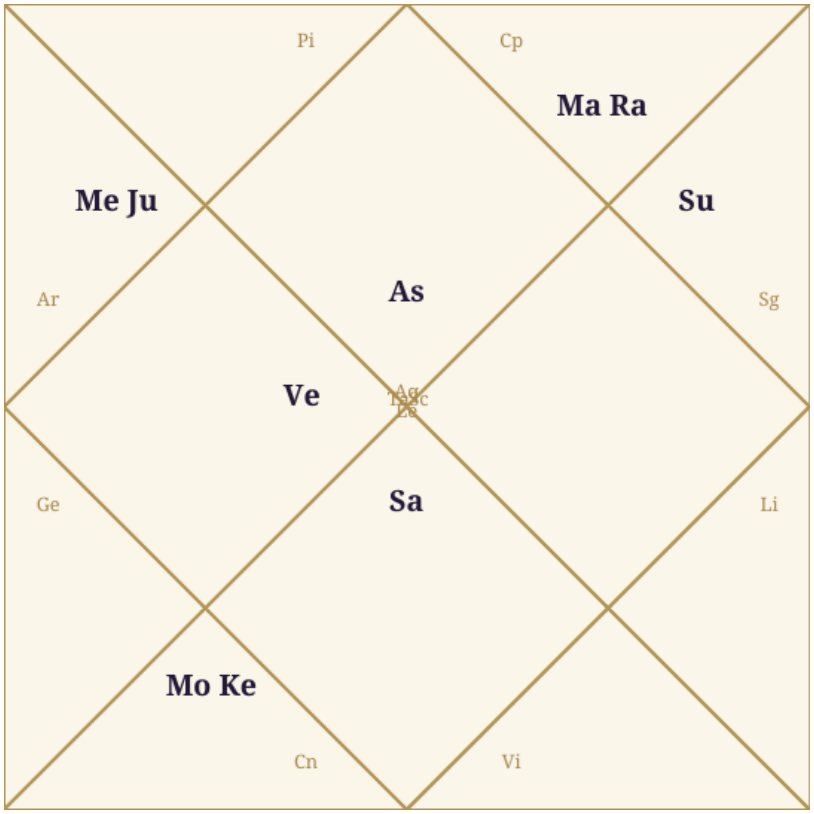

House	Sign	Area of life	Lord	Lord placed in	Planets in the house
3	Scorpio	Effort, skills	Mars	House 8	—
4	Sagittarius	Premises, property	Jupiter	House 11	Saturn
5	Capricorn	Judgement, speculation	Saturn	House 4	Rahu
6	Aquarius	Team, staff, competition	Saturn	House 4	—
7	Pisces	Partnerships, customers	Jupiter	House 11	—
8	Aries	Joint money, sudden change	Mars	House 8	Mars
9	Taurus	Fortune, mentors	Venus	House 11	Moon
10	Gemini	The business, status	Mercury	House 12	—
11	Cancer	Gains, income, networks	Moon	House 9	Sun, Jupiter, Venus, Ketu
12	Leo	Costs, expenditure, foreign	Sun	House 11	Mercury

CHART BASIS

Your operating map — 10th house Gemini, lord Mercury in house 12; 11th house Cancer, lord Moon in house 9; 7th house Pisces, lord Jupiter in house 11; 2nd house Libra, lord Venus in house 11; 6th lord Saturn in house 4; Mercury Mercury in Leo (house 12)

Your Dashamsha — the Career Chart (D10)

For work and business, Jyotish reads a second chart: the Dashamsha (D10), drawn from the same longitudes, which shows how the birth chart's promises behave specifically at work. Your D10 Lagna is Aquarius, and Mercury — the vyapar karak — sits in house 3 of it. For a growth reading, three lords matter most:

DASHAMSHA · D10 · CAREER

- Mercury, lord of your 10th house, sits in house 3 of your Dashamsha — the career chart keeps this lord in a neutral house — steady, earned support.
- Moon, lord of your 11th house, sits in house 6 of your Dashamsha — the career chart puts this lord in a demanding house — growth through it comes by system and patience, not speed.
- Jupiter, lord of your 7th house, sits in house 3 of your Dashamsha — the career chart keeps this lord in a neutral house — steady, earned support.

Dashamsha computed by the standard Parashari rule from the same longitudes as your birth chart. A growth lord that holds up in D10 traditionally delivers in the market, not only on paper; one that falls in a demanding D10 house delivers through system and patience — which is why Sections 08 and 09 are written the way they are.

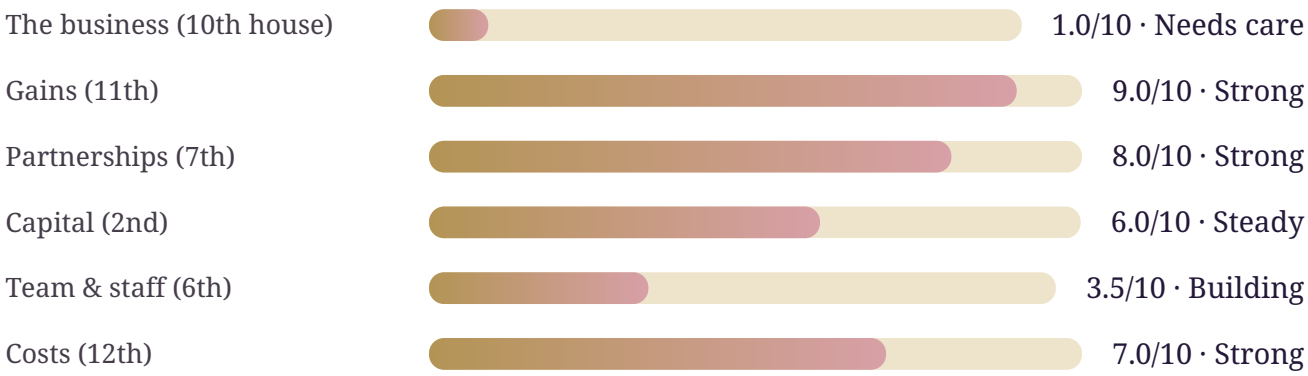

PART ONE

The Growth Engine

Four houses and one planet decide how a running business grows in your chart. This part scores each of them — and names the patterns they form, including the ones that warn.

Your Growth Strength Scores

Each house below is scored 0–10 by the same stated method used across our reports: the house lord's placement (gain-linked houses — 2nd, 5th, 9th, 10th, 11th — add; the 6th, 8th and 12th subtract), the lord's dignity (exalted and own-sign add, debilitated subtracts), and the planets sitting inside the house (benefics add, malefics subtract). The method is stated so you can see exactly what every score is made of.

Your Growth Index: 58 / 100 — a weighted blend of the four growth houses: the 10th (the business) and the 11th (gains) count 30% each, the 7th (partnerships) and the 2nd (capital) count 20% each. The 6th and 12th are scored above for operations but are not in the blend. A workable engine — the work of this report is sequencing: let the phases carry the big steps, and let Section 09's discipline carry everything else.

The four growth houses, one by one:

House 10 — The business house

Gemini · Lord Mercury, placed in house 12

The venture itself — its work, its name, its capacity to carry a bigger load. Its lord sits in a demanding house — this side of growth needs deliberate, written management. No planet sits here — the house works through its lord alone.

Chart basis: Mercury in Leo (house 12).

House 11 — The gains house

Cancer · Lord Moon, placed in house 9 · exalted

Realised income — the house that decides whether growth becomes money or only motion. Its lord sits in a gain-linked house — this side of growth works with you when the system is set. Occupied by Sun, Jupiter, Venus, Ketu.

Chart basis: Moon in Taurus (house 9), exalted.

House 7 — The partnership house Pisces · Lord Jupiter, placed in house 11 · exalted

Growth through other people — partners, distributors, key clients, platforms. Its lord sits in a gain-linked house — this side of growth works with you when the system is set. No planet sits here — the house works through its lord alone.

Chart basis: Jupiter in Cancer (house 11), exalted.

House 2 — The capital house Libra · Lord Venus, placed in house 11

The fuel of growth — retained earnings, family capital and the reserve behind both. Its lord sits in a gain-linked house — this side of growth works with you when the system is set. No planet sits here — the house works through its lord alone.

Chart basis: Venus in Cancer (house 11).

Your operating houses complete the picture: the 6th (team, staff, competition) scores 3.5/10 · Building — its lord Saturn sits in house 4; and the 12th (costs and outgoings) scores 7.0/10 · Strong. Section 08 reads the 6th for hiring; the 12th is audited by the cash patterns in Section 03.

Growth Patterns Found in Your Chart

Every pattern below was checked against your chart by an explicit rule, and the rule's basis is shown with it. Patterns that did not fire are not printed. Read the three lists differently: the first is what to build on, the second is where growth itself becomes the risk, and the third is how cash actually moves in this chart.

Scaling strengths — what growth can build on:

- 11th lord in a trikona (house 9). Your gains lord Moon sits in a fortune house — growth in this chart is traditionally backed by timing, mentors and merit. The backing is real; it still has to be met with preparation.
- Jupiter’s support on growth. Jupiter is placed in house 11 — advised growth in this chart: expansion steps taken with counsel, credit arranged fairly, and mentors consulted tend to hold. Grow with advice, not alone.
- 2nd lord in the 11th house. Your capital lord Venus sits in the gains house — retained earnings and family capital convert into growth funding in this chart when deployed inside an Expand window (Section 05). Idle capital here tends to find worse uses on its own.
- Growth routed through partners and clients. Your partnership and gains houses are linked — growth in this chart comes through other people: a distributor, a partner's territory, a key client's expansion. Choose those people as carefully as the step itself.

Over-expansion caution patterns — named plainly, as cautions and not as doom:

- Mars aspects your 11th house — competitive over-expansion. Mars aspects your gains house from house 8 — competitive heat reaches your growth decisions: the rival's new outlet, the rival's price cut, answered by expanding before the base is ready. Your chart's answer is timing (Section 05), not reaction.
- Rahu on the 5th — the trend bet at scale. Rahu touches your 5th house, the house of judgement. At growth stage this is the trend bet: the season's capital placed on one fashionable line. Your chart rewards the founder who tests small and reorders — not the one who fills the godown on a hunch.

Your cash-flow structure — how money actually moves:

- 12th lord Sun in house 11 — costs ride on income. Your expenditure lord sits in a money house — in this chart, costs rise through the same channels income arrives by: more sales quietly bring more overhead. At every growth step, name the step's own recurring cost in writing before approving it, or the step will name it for you.
- Mercury in the 12th house — a named cost channel. Mercury sits in your house of expenditure. Read as a business cost, this is a specific, nameable channel — the one to audit

first at the monthly review. Once named and budgeted, it stops leaking and starts costing a known amount.

YOUR NAME — YOUR ACTION POINT

From the caution list, pick the ONE pattern that describes your costliest past expansion most exactly. Write its name at the top of the expansion gate in Section 09. Every future expansion proposal gets read against that one line before it is read for its promise.

Mercury & Your Digital Tendency

For a running business, Mercury is the operations officer — and, with Rahu, the author of your digital channel. Here he is, read for operations:

Mercury (Budh) — operations and accounts Mercury in Leo (house 12), Purva Phalguni nakshatra

Mercury, the vyapar karak, sits in your 12th house, in Leo. He rules your 1st and 10th house(s). For a running business he is the operations officer: accounts, stock records, supplier terms, pricing and messages. His style in this chart is online, foreign or behind-the-scenes — the trade happens where the customer never sees the godown. He stands 27.1° from the Sun — clear of combustion, so his operational judgement is traditionally read as his own, not overwhelmed.

Your digital tendency: Moderate digital lean (score 1 from the links below). This is a tendency, not an instruction: a channel you understand beats a fashionable one you don't, whatever any chart says.

- Mercury sits in the 12th house — trade channels lean online, foreign or behind-the-scenes

Taken together, your chart shows a moderate digital lean — online and wider-market channels will work for this business as a channel alongside the physical one, not as a replacement for it. Build the channel; keep the shop.

CHART BASIS

Mercury–Rahu method — Links checked: Mercury–Rahu conjunction, Rahu in the 10th/11th, Mercury in the 12th or 3rd, Rahu's aspect (5th, 7th, 9th from Rahu) on Mercury's house. Mercury: Mercury in Leo (house 12). Rahu: Rahu in Capricorn (house 5), aspecting houses 1, 5, 9, 11.

SECTION 04 · PARTNERSHIP HEALTH

Partnership Health — the Standing Re-Check

A running business does not choose its partners once; it re-chooses them every quarter it fails to review. This section is deliberately brief — a health re-check, not the full reading. The detailed partnership reading is in the Vyapar Yog Report, which reads your 7th house partner by partner, with its supports and cautions named in full. What follows is the standing check to run against that reading, or on its own, four times a year.

Your 7th lord is Jupiter, placed in house 11, exalted; the house itself holds no planet.

Your partnership health verdict: Sound — keep the quarterly re-check.

- 7th lord Jupiter sits in gain-linked house 11 — the partnership channel currently reads structurally sound.
- 7th lord is exalted — partner quality is a traditional strength of this chart.
- Jupiter aspects your 7th house — fair dealing and good counsel are traditionally available to this partnership; use an adviser at the review.

The three re-check questions — answer them in writing, on a fixed day each quarter:

- Money: are the partnership accounts reconciled to last month — drawings, dues and shared costs — without a single item carried on trust?
- Roles: is each partner still doing the job the written terms gave them — or has the work quietly moved while the shares stayed?
- Exit: if either side wanted out this quarter, does the written exit still work — valuation, notice, and who keeps the name, the premises and the customers?

A partnership that passes these three is healthy whatever its dasha. One that fails them needs the formal review now — kindly, in writing, and before the next expansion step is taken jointly.

YOUR NAME — YOUR ACTION POINT

Put the re-check day in the diary today: the first working day of each quarter, one hour, the three questions above, answers written. If you trade alone, run the same hour on your two largest supplier and client relationships instead — the questions translate word for word.

PART TWO

The Next Ten Years

Your growth phase map — the decade ahead classified period by period, so that expansion is taken in the windows that support it, and the base is defended in the ones that do not.

SECTION 05 · GROWTH PHASE MAP

Your 10-Year Growth Phase Map

You are living through your Jupiter Mahadasha (December 2018 – December 2034), and within it Jupiter–Venus until June 2029 — classified Expand. Venus rules your wealth-linked house(s) 2, 9; sits in house 11. Indications lean favourable for income and accumulation.

How the map is made — the points are stated, so you can check them. Each period lord first earns the standard period points used across our reports (the houses it owns and occupies, and its dignity). Growth points are then added: +2 if the lord owns your 11th house, +2 if it sits in the 11th; +2 if it owns your 10th, +1 if it sits in the 10th; +1 if it owns your 7th, +1 if it sits in the 7th; +1 if the lord is Mercury or Jupiter. Points are taken away for cash-flow pressure links: −2 if the lord owns your 8th or 12th house (counted once), −2 if it sits in the 8th or 12th. From the total: Expand = +5 or more; Conserve = −3 or less; Stabilise = everything between. Three flags are computed separately, by their own rules: Protect-cash (the lord owns or sits in the 8th or 12th — collections, taxes and the reserve come first), Team window (the lord owns or sits in the 6th — the staff house is switched on), and Over-expansion caution (a Rahu or Mars period linked to your 7th or 11th — appetite peaks; read Section 03 again before expanding). These phases are planning aids — windows of stronger or weaker indication, traditionally read — never a promise of what any window will earn.

Dasha	Dates	Phase (points)	Flags	Why
Jupiter – Venus	Nov 2026 – Jun 2029	Expand (+8)	—	Venus rules your wealth-linked house(s) 2, 9; sits in house 11. Indications lean favourable for income and accumulation.
Jupiter – Sun	Jun 2029 – Apr 2030	Stabilise (+0)	Protect-cash	Sun also rules house(s) 12, which ask for care with spending and commitments; sits in house 11. A mixed period — gains are possible with care on the spending side.
Jupiter – Moon	Apr 2030 – Aug 2031	Expand (+9)	—	Moon rules your wealth-linked house(s) 11; sits in house 9, exalted. Indications lean favourable for income and accumulation.
Jupiter – Mars	Aug 2031 – Jul 2032	Conserve (-6)	Protect-cash	Mars also rules house(s) 8, which ask for care with spending and commitments; sits in house 8, in its own sign. A period to protect savings and avoid large commitments.
Jupiter – Rahu	Jul 2032 – Dec 2034	Stabilise (+2)	—	Rahu sits in house 5. A mixed period — gains are possible with care on the spending side.

Dasha	Dates	Phase (points)	Flags	Why
Saturn – Saturn	Dec 2034 – Nov 2036	Stabilise (+0)	Team window	Saturn rules your wealth-linked house(s) 5, also rules house(s) 6, which ask for care with spending and commitments; sits in house 4. A mixed period — gains are possible with care on the spending side.

Your next Expand window: Jupiter–Venus (Nov 2026 – Jun 2029). Prepare it in the Stabilise stretch before it — stock, terms, people, papers — so the window is spent executing, not arranging.

Protect-cash stretches: 2 of the 6 windows on your map carry the flag (Jupiter–Sun; Jupiter–Mars). In those stretches the standing order is collections first, reserve second, expansion last — whatever the market is shouting.

Team windows: Saturn–Saturn — read with Section 08.

Your current mahadasha in full — Jupiter: every sub-period, classified by the same rule.

Sub-period	Dates	Phase (points)	Flags
Jupiter – Jupiter	Dec 2018 – Jan 2021	Expand (+9)	—
Jupiter – Saturn	Jan 2021 – Aug 2023	Stabilise (+0)	Team window
Jupiter – Mercury	Aug 2023 – Nov 2025	Stabilise (+1)	Protect-cash
Jupiter – Ketu	Nov 2025 – Oct 2026	Stabilise (+4)	—
Jupiter – Venus	Oct 2026 – Jun 2029	Expand (+8)	—
Jupiter – Sun	Jun 2029 – Apr 2030	Stabilise (+0)	Protect-cash
Jupiter – Moon	Apr 2030 – Aug 2031	Expand (+9)	—
Jupiter – Mars	Aug 2031 – Jul 2032	Conserve (-6)	Protect-cash
Jupiter – Rahu	Jul 2032 – Dec 2034	Stabilise (+2)	—

SECTION 06 · CONTINUED

Year by Year — Your Next Ten Years

The same decade, read as a founder should read it — each year classified by the period running at its mid-point, with what that year asks of the business:

2026 Jupiter – Venus · growth points +8 **Expand**

An expansion year: take the prepared step inside the year's Expand stretches on the map — the second outlet, the bigger premises, the new line, the key hire — sized by the reserve rule, not by optimism.

2027 Jupiter – Venus · growth points +8 **Expand**

An expansion year: take the prepared step inside the year's Expand stretches on the map — the second outlet, the bigger premises, the new line, the key hire — sized by the reserve rule, not by optimism.

2028 Jupiter – Venus · growth points +8 **Expand**

An expansion year: take the prepared step inside the year's Expand stretches on the map — the second outlet, the bigger premises, the new line, the key hire — sized by the reserve rule, not by optimism.

2029 Jupiter – Moon · growth points +9 **Expand**

An expansion year: take the prepared step inside the year's Expand stretches on the map — the second outlet, the bigger premises, the new line, the key hire — sized by the reserve rule, not by optimism.

2030 Jupiter – Moon · growth points +9 **Expand**

An expansion year: take the prepared step inside the year's Expand stretches on the map — the second outlet, the bigger premises, the new line, the key hire — sized by the reserve rule, not by optimism.

2031 Jupiter – Mars · growth points -6 **Conserve**

A protective year: defend cash, shorten credit, clear slow stock, sign nothing with a new fixed monthly cost. A clean Conserve year is a growth decision, not a pause. Flags on the mid-year period: Protect-cash.

2032 Jupiter – Rahu · growth points +2 **Stabilise**

A base year: deepen what already sells, train the team, tighten the systems. The growth of this year is capacity — it is what the next Expand window will spend.

2033 Jupiter – Rahu · growth points +2 **Stabilise**

A base year: deepen what already sells, train the team, tighten the systems. The growth of this year is capacity — it is what the next Expand window will spend.

2034 Saturn – Saturn · growth points +0 **Stabilise**

A base year: deepen what already sells, train the team, tighten the systems. The growth of this year is capacity — it is what the next Expand window will spend. Flags on the mid-year period: Team window.

2035 Saturn – Saturn · growth points +0 **Stabilise**

A base year: deepen what already sells, train the team, tighten the systems. The growth of this year is capacity — it is what the next Expand window will spend. Flags on the mid-year period: Team window.

Your 12-Month Calendar

Month by month for the year ahead — your dasha sub-period, its growth phase, and what Jupiter and Saturn are doing in your chart at the time. Pin this page next to the hisaab diary.

Month	Dasha	Phase	Growth focus
Nov 2026	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size.
Dec 2026	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size.
Dec 2026	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size.
Jan 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size.
Mar 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Jupiter transits your 11th house — visibility and gains support the month's step.
Apr 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Jupiter transits your 11th house — visibility and gains support the month's step.
May 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Jupiter transits your 11th house — visibility and gains support the month's step.
Jun 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Jupiter transits your 11th house — visibility and gains support the month's step; Saturn transits your 8th house — audit costs and joint-money papers.
Jul 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Saturn transits your 8th house — audit costs and joint-money papers.

Month	Dasha	Phase	Growth focus
Aug 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Saturn transits your 8th house — audit costs and joint-money papers.
Sep 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Saturn transits your 8th house — audit costs and joint-money papers.
Oct 2027	Jupiter–Venus	Expand	Take the prepared expansion step — second outlet, bigger premises, new line, key hire. Expand what is already proven, in steps you can reverse, and let the reserve rule in Section 09 set the size. Saturn transits your 8th house — audit costs and joint-money papers.

Transit windows — the weather over the map: Jupiter's transits through your 2nd, 7th, 10th and 11th houses are the opportunity stretches; Saturn's through your 7th and 10th are the slow-build stretches, and his passes through the 6th, 8th and 12th are included as cautions, so nothing here is cherry-picked.

Planet	Transit	Dates	Reading
Jupiter	Cancer — your house 11	Jan 2027 – Jun 2027	Jupiter in the gains house — income-side support. Route the surplus into the reserve and the next prepared step, not into display.
Jupiter	Libra — your house 2	Jan 2029 – Apr 2029	Jupiter in the capital house — arrange growth capital and rebuild the reserve on fair terms in this stretch; lenders and suppliers read you kindly now.
Jupiter	Libra — your house 2	Sep 2029 – Jan 2030	Jupiter in the capital house — arrange growth capital and rebuild the reserve on fair terms in this stretch; lenders and suppliers read you kindly now.
Jupiter	Libra — your house 2	May 2030 – Sep 2030	Jupiter in the capital house — arrange growth capital and rebuild the reserve on fair terms in this stretch; lenders and suppliers read you kindly now.
Saturn	Pisces — your house 7	Nov 2026 – Jun 2027	Saturn in the partnership house — partnerships move slowly and seriously; written terms and patience. What is renewed in this transit tends to last.
Saturn	Aries — your house 8	Jun 2027 – Oct 2027	Saturn in the 8th — keep insurance, tax and joint-money papers in order; do not stand guarantor for anyone in this stretch.
Saturn	Pisces — your house 7	Oct 2027 – Feb 2028	Saturn in the partnership house — partnerships move slowly and seriously; written terms and patience. What is renewed in this transit tends to last.

Planet	Transit	Dates	Reading
Saturn	Aries — your house 8	Feb 2028 – Aug 2029	Saturn in the 8th — keep insurance, tax and joint-money papers in order; do not stand guarantor for anyone in this stretch.
Saturn	Aries — your house 8	Oct 2029 – Apr 2030	Saturn in the 8th — keep insurance, tax and joint-money papers in order; do not stand guarantor for anyone in this stretch.

CHART BASIS

Transit method — Jupiter and Saturn sign transits computed with the same Swiss Ephemeris and Lahiri ayanamsha as your birth chart, read by whole-sign house from your Lagna.

SECTION 08 · HIRING & TEAM

Hiring & Team Windows

People are the largest fixed cost a growing business takes on — and the only one that can also do the growing. Your 6th house governs team, staff and service. Its lord is Saturn, placed in house 4, and the house scores 3.5/10 · Building. A Team window on your map (Section 05) is a period whose lord owns or sits in this house — the staff house is switched on, and team questions come to the front whether you schedule them or not. Used well, those are the hiring and restructuring windows:

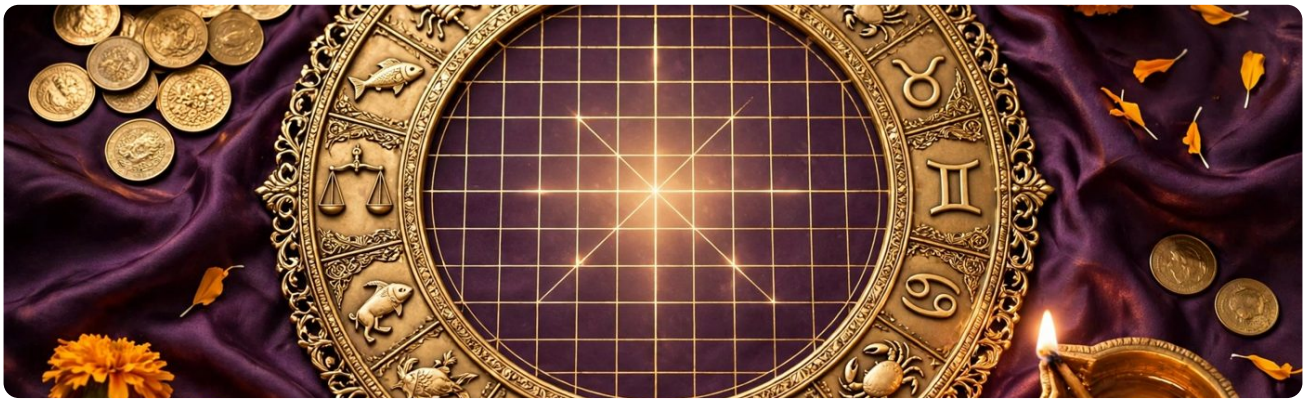

Dasha	Dates	Phase	Team reading
Saturn – Saturn	Dec 2034 – Nov 2036	Stabilise	Hire or expand the team here — the period switches on your staff house inside a workable phase.

The standing hiring rules — they hold in every window:

- Hire the bottleneck, not the wish. The next hire should remove the constraint that currently caps your own week — name that constraint in writing before the interview, or the hire becomes one.
- Phase decides the contract. Permanent salaries belong to Expand and Stabilise windows. In a Conserve phase, use contract, seasonal or commission help — capacity without fixed cost.
- Train in Stabilise, harvest in Expand. A team hired in an Expand window is too late for it; the map's Stabilise stretches are when skills are built.
- Pay on time, in every phase. A delayed salary is the most expensive saving a business ever makes. If cash forces a choice, it is taken anywhere else first.

YOUR NAME — YOUR ACTION POINT

Write down, today, the one role you would hire next if the window were right — the tasks, the hours it frees, and the revenue or quality it protects. Keep the page. When the next Team window opens, that page is your job description, already written at leisure instead of in a rush.

SECTION 09 · PRACTICAL DISCIPLINE

Practical Growth Discipline

The chart shows pattern and timing; this page is the work itself. Four standing rules and one gate. They are practical rules, not astrology — printed here because in every business we have seen described by charts like yours, these decide more outcomes than any phase on the map. In your own ten-year map, 2 of the 6 windows carry the Protect-cash flag — periods whose lords own or occupy your 8th or 12th house. For this chart the reserve is not general advice; it is the plan itself. Build it before the flag arrives, and a flagged window becomes a quiet one.

1. The cash reserve rule. Before any expansion step, hold a reserve of three months of fixed costs — rent, salaries, loan payments, standing charges — in a separate account that daily spending cannot touch. Expansion is funded from earnings above the reserve, never from the reserve. In Protect-cash windows the reserve is rebuilt before anything else is discussed. A business with a full reserve can refuse bad terms, bad partners and bad timing; a business without one accepts all three.

2. Stock discipline. Walk the stock monthly with the diary in hand (money-flow books call this the stock review; here it is a growth rule): anything that has not moved in ninety days is priced to move — bundled, discounted, returned or written down. Dead stock is frozen growth capital. The review also names what is selling faster than it is being reordered — that, and only that, is what expansion stock money buys first.

3. The credit policy. Udhaar is written, limited and reviewed weekly. Fix three numbers and do not let growth move them silently: who qualifies for credit, the per-customer limit, and the total — as our standing rule, keep total market credit outstanding under one month of average sales. Growth that is financed by your own receivables is growth you are lending to your customers; price it knowingly or do not do it.

4. The monthly review cadence. On one fixed day each month — the same date, one hour — sit with three papers: last month's accounts, the stock review, and this report's Phase Map. Ask only three questions: What phase are we in? What did we decide to do in it?

What is the one step for the coming month? Write the answers. Growth reviewed monthly compounds; growth reviewed at year-end is archaeology.

5. The expansion gate. Before any expansion step — new premises, second outlet, new line, large hire — all three answers must be yes, in writing: Is the current unit profitable, on paper, for two consecutive quarters? Is the reserve full (Rule 1)? Is the window Expand — or, if Stabilise, is the step reversible? One "no" does not kill the step; it dates it. The gate's job is not to stop growth — it is to make growth arrive when the business can carry it.

And one line that belongs in every growth report: expansion seasons strain more than the ledger — the founder's sleep, temper and health are business assets too. If the weight of the business ever feels heavier than business, please talk to someone you trust, or call Tele-MANAS 14416 — the Government of India's free, confidential mental-health helpline, available 24×7. Protecting the founder is a growth decision.

YOUR NAME — YOUR ACTION POINT

Do Rule 1's first step this week: open the separate reserve account and move whatever sum, however small, starts it. Then write the current balance at the top of your monthly review page. The reserve that exists grows; the reserve that is planned does not.

Remedies Chosen for Your Chart

Chosen by rule for your chart — your gains lord first, as the growth target; then your business lord, Mercury, the lord of your weakest growth house, and the lords of the periods you are currently living. Small, traditional, and free or nearly so. Nothing here is a condition for anything else in this report to "work" — the discipline in Section 09 carries the result; these practices carry the rhythm.

For Moon (lord of your 11th house (gains — the growth target) — Moon in Taurus (house 9), exalted)

Mantra: Om Chandraya Namah — 11 times, Monday morning.
Start date: begin on Monday, 16 November 2026 — the next Monday after this report.
Small daan: rice or white items on a Monday.
Practice: On Mondays, meet your oldest customer or your longest-serving team member yourself. Growth that forgets its first people does not keep them.
Supportive colour: white and silver — wear or use it on Mondays.

For Mercury (lord of your 10th house (the business itself) — Mercury in Leo (house 12))

Mantra: Om Budhaya Namah — 11 times, Wednesday morning.
Start date: begin on Wednesday, 11 November 2026 — the next Wednesday after this report.
Small daan: green moong on a Wednesday.
Practice: Wednesday is Budh’s day: reconcile the galla, update the hisaab diary, answer every pending supplier and customer message. Growth multiplies whatever the accounts are — keep them true.
Supportive colour: green — wear or use it on Wednesdays.

For Jupiter (a lord of your current period — Jupiter in Cancer (house 11), exalted)

Mantra: Om Gurave Namah — 11 times, Thursday morning.
Start date: begin on Thursday, 12 November 2026 — the next Thursday after this report.
Small daan: chana dal or yellow items on a Thursday.
Practice: On Thursdays, take one piece of counsel — a mentor, a senior trader, a book — and write what it changes in the diary before Friday. Expansion signed without counsel

is this chart's most expensive habit to acquire.
Supportive colour: yellow — wear or use it on Thursdays.

For Venus (a lord of your current period — Venus in Cancer (house 11))

Mantra: Om Shukraya Namah — 11 times, Friday morning.
Start date: begin on Friday, 13 November 2026 — the next Friday after this report.
Small daan: white sweets or rice on a Friday.
Practice: Keep the premises, the display and yourself fresh on Fridays; a growing business is judged by new customers on the feeling of the place before the price of the goods.
Supportive colour: white and pastel pink — wear or use it on Fridays.

The monthly review practice (Mercury: Mercury in Leo (house 12))

Section 09's review gets a start date like every other practice in this report: hold the first review on Wednesday, 11 November 2026 — the next Wednesday after this report — with the three papers and the three questions, and fix the same date each month from there. Start date: begin on Wednesday, 11 November 2026. A review kept twelve times is worth more to growth than any single decision taken inside any single window.

An honest note on gemstones

Stones are sold hard to growing businesses — for the gains lord, for Mercury, for "growth". This report does not recommend buying one for business results: no stone keeps a reserve, reviews stock or hires well. The information is omitted from the salesman's version deliberately — if you ever consider a stone, take a suitability opinion from a trusted astrologer first, buy only certified stones, and treat the purchase as jewellery, never as equipment.

Your Lucky Panel — calculated from your birth date and Moon, as in our other reports:

LUCKY NUMBERS	LIFE PATH NUMBER	LUCKY DAY
2, 6	6	Friday

LUCKY COLOUR	MOON SIGN	BIRTH STAR
Cream And Light Green	Taurus	Rohini

SECTION 11 · YOUR PLAN

Your 30-60-90 Day Growth Plan

Your current period is Jupiter–Venus, classified Expand on your growth map (growth points +8). Here is how to use the next ninety days:

- Days 1–30: open the reserve account and make the first transfer, however small (Section 09, Rule 1). Do the first ninety-day stock review and price the dead stock to move. Begin the Moon practice and hold the first monthly review on its start date (Section 10).
- Days 31–60: write the credit policy down — the three numbers from Rule 3 — and bring the udhaar book inside them. Write the next-hire page from Section 08. If you trade with a partner, run the three re-check questions from Section 04 this month and write the answers.
- Days 61–90: hold the second monthly review against the Phase Map. Your current phase is Expand: prepare the gated expansion step properly — gate answers in writing (Section 09), stock and people arranged — and take it inside the window.

YOUR BUSINESS GROWTH SUMMARY · YOUR NAME

- Growth Index: 58 / 100 · Strongest growth house: the 11th (score 9.0/10, Strong) · Weakest: the 10th (1.0/10).
- Strongest pattern to build on: 11th lord in a trikona (house 9).
- Main caution to manage: Mars aspects your 11th house — competitive over-expansion.
- Digital tendency: Moderate digital lean (Mercury in house 12, Leo).
- Partnership health: Sound — keep the quarterly re-check (7th lord Jupiter in house 11).
- Current phase: Jupiter–Venus — Expand (growth points +8). Venus rules your wealth-linked house(s) 2, 9; sits in house 11. Indications lean favourable for income and accumulation.
- Next Expand window: Jupiter–Venus (Nov 2026 – Jun 2029).
- Your numbers: Lagna Virgo · Moon Taurus (Rohini) · Lucky numbers 2, 6 · Lucky day Friday.

How your report was calculated:

Planet positions: Swiss Ephemeris. Ayanamsha: Lahiri (Chitrapaksha). Houses: whole-sign from the ascendant. Divisional chart: standard Parashari D10 (Dashamsha). Periods: Vimshottari dasha from the Moon's nakshatra; transits from the same ephemeris. Growth Strength scores use the stated house-lord method (lord placement, dignity, occupants) and the printed index weights; growth phases use the points rule printed in Section 05, with the Protect-cash, Team window and Over-expansion caution flags computed by their own stated rules. Partnership material is a summary re-check; the detailed partnership reading is in the Vyapar Yog Report. Interpretation follows traditional Jyotish rules and points to tendencies and periods, not certain outcomes. This report is astrological guidance — not financial, legal or investment advice, and not a guarantee of revenue, profit or business growth of any kind. If your birth time is approximate, sections that depend on the ascendant are less certain; write to theastrosacred@gmail.com and we will re-issue once, free, with corrected details. Your birth details are used only to prepare and deliver this report, and are never sold or shared. · Astro Sacred
