PERSONALISED CAREER & JOB REPORT

Prepared exclusively for

Your Name

Report prepared 09 November 2026 · Lahiri ayanamsha · Whole-sign houses

Welcome, Your Name

This report is about one subject only — your career — and it is calculated entirely from your birth chart: your 10th house and its lord, your Dashamsha (D10), the divisional chart Jyotish reserves for career, your Sun and Saturn, your 6th house of service and selection, and the planetary periods you will live through in the coming years.

One line before everything else, because it is the truth this whole report stands on:

> **THE HONEST LINE**
>
> Naukri yogyata, taiyari aur prayas se milti hai — a job comes from your qualifications, your preparation and your effort. This report reads your chart for direction and for the timing of effort — which seasons traditionally support applications, examinations and growth. It is not, and no honest report can be, an appointment letter.

Three more promises. First, no job is guaranteed here — not a private job, and not a sarkari (government) one. Where Section 04 shows traditional authority patterns, it shows patterns — the tradition's indications — never a promise of a post. Second, a slow chart is not a failed chart. Saturn-heavy careers rise late and stay; this report reads timing as seasons for effort, not as verdicts on your worth. Third, no genuine employer charges a fee for a job. Anyone who asks you for money, gift cards or "processing charges" in exchange for an appointment — or asks you to surrender your original certificates — is running a fraud, whatever name or logo they use. Section 09 returns to this in full.

Your Dashamsha (D10) — the Career Chart

A serious career reading in Jyotish is done twice: once in the birth chart (D1) and once in the Dashamsha (D10) — the divisional chart that shows the inner strength of the career promise: how work actually unfolds — bosses, institutions, professional reputation — beneath the surface of the birth chart. Here is yours:

DASHAMSHA · D10 · CAREER

D10 AT A GLANCE

D10 Lagna: Aquarius
D10 10th house: Scorpio, lord Mars in D10 house 12 · exalted
D1's 10th lord Mercury in D10: Aries, house 3
D10 Sun: Sagittarius, D10 house 11
D10 Saturn: Leo, D10 house 7

READING NOTES

Your Dashamsha Lagna is Aquarius. The 10th house of the D10 is Scorpio, ruled by Mars, placed in house 12 of the Dashamsha, exalted. Your birth chart's 10th lord Mercury stands in Aries in the D10 (house 3), and the D10 develops the birth chart's promise steadily, through craft and routine.

CHART BASIS

Dashamsha computation — D10 Lagna Aquarius; 10th from D10 Lagna = Scorpio (lord Mars, in D10 house 12); birth-chart 10th lord Mercury in Aries (D10 house 3). D10 strength score components: the D10 10th lord Mars sits in D10 house 12, a demanding house — the inner career chart asks for patience; Mars is exalted in the D10 (Capricorn) — the career chart's engine is intrinsically strong; the D10 Lagna lord Saturn sits in D10 house 7, well placed for professional stability.

SECTION 02 · YOU AT WORK

Your Working Nature — Lagna, Moon & Nakshatra

Your Lagna is Virgo. You are a natural analyst of money — budgets, details, small leaks found early. Service and skill-based income suit you. Your growth edge is trusting the big picture once the details check out, instead of perfecting forever.

Your Moon is in Taurus, in Rohini nakshatra, pada 3. Emotionally, you need stability — a visible reserve calms you and helps you take wise risks elsewhere. At work this Moon matters in a specific way: it describes your working temperament — the climate in which you produce your best work, what drains you in a team, and what genuinely restores you after a hard week. A workplace that fits this pattern will feel "right" to you within a month; one that fights it will tire you whatever the salary says. Your birth star adds its signature: Rohini is the star of growth and beauty — wealth through steady cultivation, luxury, food, land and the arts.

CHART BASIS

Lagna, Moon and nakshatra — Lagna Virgo 28.7°; Moon in Taurus at 18.9°, Rohini pada 3; Moon exalted in house 9.

YOUR NAME — YOUR ACTION POINT

Before an interview or an important application, do one thing from your Moon line above — the small ritual, food, colour or rest it points to. Arriving as your settled self is worth more than any last-minute preparation.

PART ONE

Your Career Blueprint

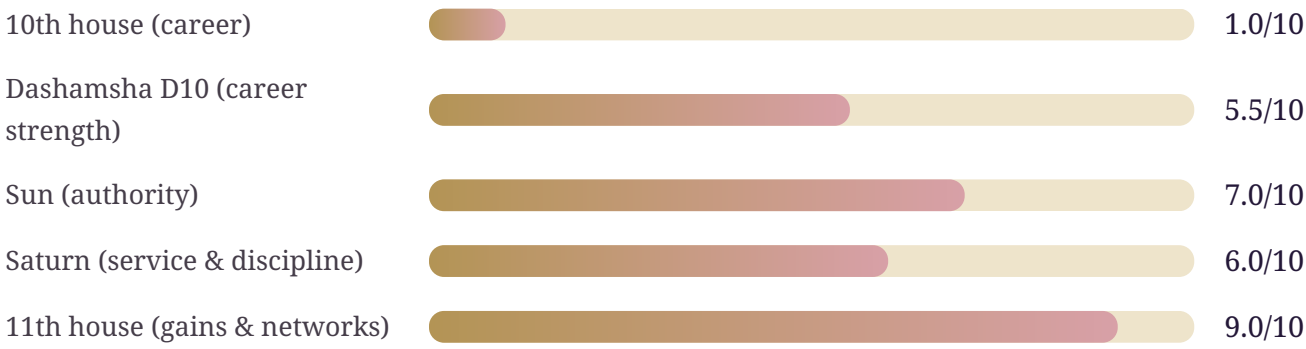

The 10th house, its lord, the Sun and Saturn — what your chart already holds about work, read plainly and without fear.

SECTION 03 · CAREER BLUEPRINT

Your Career Chart at a Glance

Your 10th house — the house of career, role and public standing — is Gemini, ruled by Mercury, who sits in your house 12 with Mercury for company. No planet sits in the 10th house itself — the house works through its lord, Mercury, whose placement above is therefore the centre of this reading. Through that placement: career tends to run through distance or behind the scenes — foreign or remote work, institutions, research, night or back-office roles; substance often exceeds visibility.

Your Career Strength scores — each scored 0–10 by a stated method: house scores from the lord's placement and dignity plus the planets involved; single-planet scores from dignity and placement; the D10 score from the career chart's own 10th lord, its dignity, and its Lagna lord (the components are listed in Section 01). The same transparent method is used across our reports, so you can see exactly what each score is made of:

Your Career Index: 57 / 100. A workable base — the work of this report is timing, aim and using your supportive windows well.

The Patterns That Fire in Your Chart

Jyotish reads a career through named patterns — combinations of lords, houses and aspects. Rather than naming patterns your chart does not have, this report lists only the ones that actually fire in your chart, each with its rule visible in its description:

10th lord in the 12th house — the distance pattern

Your 10th lord Mercury sits in the 12th house. Tradition reads this as a career that works through distance or behind the scenes: work away from the birthplace, foreign or remote clients, hospitals, institutions, research, night or back-office roles — or a career whose visible rise is slower than its real substance. It is not a weak placement; it is a specific geography of work. Section 05 returns to it.

Saturn's aspect on your 10th house

Saturn aspects your 10th house from house 4. The tradition reads this as a slow-rise career: seniority, patience and unglamorous consistency are the ladder. Early speed is not promised; staying power is. Promotions in this pattern reward the person who is still standing, prepared, when the door opens.

A loaded 11th house — gains through people

Your 11th house holds 4 planets — Sun, Jupiter, Venus, Ketu — in the house of gains. Income growth in this chart is social: networks, senior allies, communities and audience. Lone-wolf strategies underuse the chart's strongest room.

6th lord in an angular house — competitive steadiness

Your 6th lord Saturn sits in angular house 4. The house of service, examinations and daily work is anchored: this is the pattern of someone who can prepare for a long selection process without losing rhythm — provided the preparation is structured (Section 09).

Chart basis: Saturn in Sagittarius (house 4), Purva Ashadha nakshatra.

Chart basis: Ketu in Cancer (house 11), Pushya nakshatra.

The Job–Business Lean, and the Authority Patterns

One of the first questions every career reading is asked — naukri or business? — deserves a rule, not a mood. So here is the rule this report uses, in full: points toward service when the 10th lord or the 6th lord (service) anchor the career, when Saturn disciplines the 10th, and when the Sun touches the career frame; points toward independent work when the 7th lord (trade) and 11th lord (gains) anchor it, when Mercury staffs the commerce houses, and when Rahu sits in the career or gains houses. A difference of two points or more is read as a lean; anything smaller is read as balanced. It is a lean — a direction of fit — never a verdict, and it never overrules your qualifications, your capital or your family's situation.

Your scores: Service 2 · Independent 2. By this rule, your chart is balanced between the two roads — neither is paved first. This is genuinely your choice, and the deciding factors are practical: your qualifications, your capital, your family's situation, and which road's daily life you can sustain for ten years.

Points toward service (employment):

- Saturn aspects your 10th house — employment discipline shapes the career (+1)
- your 6th lord sits in an angular house — competitive/service capacity is well placed (+1)

Points toward independent work (business / freelance / practice):

- your 7th lord sits in the 11th house of gains — trade feeds income directly (+2)

The traditional authority (sarkari) patterns — the combinations the tradition itself associates with government service, public authority and institutional rank. They are given here as paramparik patterns, checked one by one against your chart. 3 of the 4 patterns are present in your chart. Read that the way the tradition intends: as an indication of fit with authority-facing work — the kind of preparation Sections 07 and 09 describe — never as a promise of a government post. Posts come through examinations, notifications and merit lists; no chart issues them.

Traditional pattern	In your chart
Sun linked with Jupiter — the Sun (authority) joined or aspected by Jupiter (law, counsel, the state) is the most cited sarkari signature in the tradition.	Pattern present
Sun in a house of standing — the Sun placed in an angular, fortunate or gains house (1, 4, 5, 7, 9, 10, 11) rather than a hidden one.	Pattern present
10th lord linked to Sun or Jupiter, or placed in the 10th itself — the career lord touching the authority significators.	Not present in this chart

Traditional pattern	In your chart
Saturn disciplines the 10th while the Sun is not debilitated — the tradition's picture of passing through examinations and seniority ladders.	Pattern present

YOUR NAME — YOUR ACTION POINT

If government or institutional work attracts you, let this page choose your preparation, not your expectations: the examination is the door, the chart only suggests the corridor is worth walking. Begin with the notification calendar and the syllabus — Section 09 shows how.

SECTION 05 · FIELDS & DIRECTION

Career Fields & Direction

No chart assigns a profession. What it can do — honestly — is point to the kind of work its strongest career planets describe, so you can aim your qualifications where the fit is natural. Read the lines below as directions to test against your education and interest, not as instructions:

- Through your 10th lord Mercury: writing, communication, trade, accounting, analysis, teaching and digital work.
- Through your D10 10th lord Mars: engineering, operations, defence, sports, surgery and other action-led fields — the inner chart's emphasis.
- Through your Mercury: writing, communication, trade, accounting, analysis, teaching and digital work — your Mercury sits in house 12, so documents, numbers and interviews deserve deliberate craft.

Your 10th lord's road, once more: career tends to run through distance or behind the scenes — foreign or remote work, institutions, research, night or back-office roles; substance often exceeds visibility. And your 6th lord Saturn — the planet of your daily work and selection — sits in house 4: daily work runs steadily — craft and routine decide more than drama.

CHART BASIS

Fields basis — 10th lord Mercury (Mercury in Leo (house 12)); planets in the 10th: none; D10 10th lord Mars in D10 house 12; 6th lord Saturn in house 4.

YOUR NAME — YOUR ACTION POINT

Take the two field-lines above that match qualifications you have — or could realistically earn in twelve months — and let them choose your next course, certification or application list. Direction first, volume second.

PART TWO

When — and How to Push

Your dasha windows and transit triggers: the seasons in which career effort traditionally meets support, and what to do in each kind of season.

Your Career Timing Windows

You are living through your Jupiter Mahadasha (December 2018 – December 2034), currently Jupiter–Venus until June 2029.

The table below rates every sub-period (antardasha) of the next eight years for career activation, by a rule printed here in full: a period lord scores when it rules your 10th house (career), your 11th (gains) or your 6th (service and selection), when it is the Sun (authority) or Saturn (service and seniority), when it also rules your 9th, 2nd or 1st house, when it sits in your 10th or 11th, and for its dignity — with a deduction when it sits in a hidden house (8, 12). Supportive (3.5+) means the period traditionally supports applications, examinations, interviews and growth moves; Mixed means possible with steady effort; Demanding means the period's energy is pointed at preparation. These are windows for effort, not appointment letters — what fills a window is applications sent, examinations sat and interviews attended.

Period	Dates	Indication	Why
Jupiter – Venus	Nov 2026 – Jun 2029	Supportive	Venus also rules your 9th house — fortune and mentors; Venus also rules your 2nd house — income; Venus is placed in your 11th house of gains.
Jupiter – Sun	Jun 2029 – Apr 2030	Mixed	the Sun is the significator of authority, visibility and government-linked work; Sun is placed in your 11th house of gains.
Jupiter – Moon	Apr 2030 – Aug 2031	Mixed	Moon rules your 11th house — gains, recognition and senior networks; Moon is exalted in your chart.
Jupiter – Mars	Aug 2031 – Jul 2032	Demanding	Mars sits in house 8, a hidden house — results build quietly and surface later; Mars is in its own sign in your chart.
Jupiter – Rahu	Jul 2032 – Dec 2034	Demanding	Rahu rules no career house in your chart and sits in house 5 — its period works through that house's themes while career effort runs on the habits of Section 09.

Your transit triggers — Jupiter and Saturn through the houses that touch career, next five years:

Planet	Transit	Dates	Reading
Jupiter	Leo — your house 12	Nov 2026 – Jan 2027	Jupiter transits the sign of your 10th lord Mercury (your house 12).

Planet	Transit	Dates	Reading
Jupiter	Cancer — your house 11	Jan 2027 – Jun 2027	Jupiter transits your 11th house — gains, recognition and senior networks.
Jupiter	Leo — your house 12	Jun 2027 – Dec 2027	Jupiter transits the sign of your 10th lord Mercury (your house 12).
Jupiter	Leo — your house 12	Mar 2028 – Aug 2028	Jupiter transits the sign of your 10th lord Mercury (your house 12).
Jupiter	Libra — your house 2	Jan 2029 – Apr 2029	Jupiter transits your 2nd house and aspects your 10th house from there.
Jupiter	Libra — your house 2	Sep 2029 – Jan 2030	Jupiter transits your 2nd house and aspects your 10th house from there.
Jupiter	Libra — your house 2	May 2030 – Sep 2030	Jupiter transits your 2nd house and aspects your 10th house from there.
Jupiter	Sagittarius — your house 4	Feb 2031 – Jun 2031	Jupiter transits your 4th house and aspects your 10th house from there.
Jupiter	Sagittarius — your house 4	Oct 2031 – Nov 2031	Jupiter transits your 4th house and aspects your 10th house from there.
Saturn	Aries — your house 8	Jun 2027 – Oct 2027	Saturn transits your 8th house and aspects your 10th house from there.
Saturn	Aries — your house 8	Feb 2028 – Aug 2029	Saturn transits your 8th house and aspects your 10th house from there.
Saturn	Aries — your house 8	Oct 2029 – Apr 2030	Saturn transits your 8th house and aspects your 10th house from there.

Classical practice gives the most weight where a Supportive dasha window and a transit trigger overlap. In your case the strongest window in this table is Jupiter–Venus (Nov 2026 – Jun 2029, rated Supportive) — plan your biggest push inside it.

SECTION 07 · SERVICE & SATURN

Service, Competition & the Discipline Engine

Every career has an engine room, and in a chart it is the 6th house — daily work, service, examinations, rivals, and the unglamorous repetition that selection is actually made of. Yours is Aquarius, ruled by Saturn, placed in house 4, scoring 3.5/10 by the stated house method. A service engine that runs on systems, not moods: fixed hours, written lists and tracked applications are not optional extras for this chart — they are how its 6th house is meant to be used.

And Saturn — your discipline significator — sits in house 4 in Sagittarius , scoring 6.0/10 as a single planet. Saturn aspects your 10th house from there — the slow-rise signature of Section 03: seniority and staying power are your ladder. Saturn's lesson is never speed; it is that the person still standing, prepared, when the door opens, gets the room.

The employed reader's note: if you are already in a role, read this section as your growth engine — the 6th house is your daily craft and your internal reputation, and Saturn periods reward documentation of work done, certifications finished and processes improved. Promotions in this pattern are rarely announced surprises; they are audits that go well.

CHART BASIS

6th house and Saturn — 6th lord Saturn — Saturn in Sagittarius (house 4); 6th house score 3.5/10; Saturn Saturn in Sagittarius (house 4); Saturn aspects houses 1, 4, 6, 10.

YOUR NAME — YOUR ACTION POINT

Convert this section into one habit this week: a fixed daily preparation block — same time, phone away, one measurable output (pages, problems, applications). Your chart’s engine is repetition; feed it repetition.

SECTION 08 · REMEDIES & GEMSTONE

Remedies Chosen for Your Chart

Chosen by rule for your chart — for your 10th lord, your Sun, your 6th lord, and the lords of the periods you are currently living. Mantras, small donations and weekly practices, each with its start date. These are practices of alignment and routine; nothing here is a condition for a job to "happen", and nothing here replaces the applications, preparation and follow-up in Section 09.

For Mercury (Mercury in Leo (house 12))

Mantra: Om Budhaya Namah — 11 times, Wednesday morning.
Start date: begin on Wednesday, 11 November 2026 — the next Wednesday after this report.
Small daan: green moong on a Wednesday.
Practice: Rewrite the top three lines of your resume every Wednesday until each line carries a number, a result or a named skill. Documents are Mercury's home ground.
Supportive colour: green — wear or use it on Wednesdays.

For Sun (Sun in Cancer (house 11))

Mantra: Om Suryaya Namah — 11 times, Sunday morning.
Start date: begin on Sunday, 15 November 2026 — the next Sunday after this report.
Small daan: wheat or jaggery on a Sunday.
Practice: Keep a visible weekly scoreboard — applications sent, follow-ups made, one skill practised. Authority, including your own, respects what is counted.
Supportive colour: orange and gold — wear or use it on Sundays.

For Saturn (Saturn in Sagittarius (house 4))

Mantra: Om Shanicharaya Namah — 11 times, Saturday morning.
Start date: begin on Saturday, 14 November 2026 — the next Saturday after this report.
Small daan: sesame or mustard oil on a Saturday.
Practice: Give one hour every Saturday to the unglamorous backlog — certificates filed, forms completed, applications tracked. Saturn promotes the person whose papers are in order.
Supportive colour: dark blue and black — wear or use it on Saturdays.

For Jupiter (Jupiter in Cancer (house 11), exalted)

Mantra: Om Gurave Namah — 11 times, Thursday morning.
Start date: begin on Thursday, 12 November 2026 — the next Thursday after this report.
Small daan: chana dal or yellow items on a Thursday.
Practice: Ask one senior person one specific question every Thursday — about the work, not for a favour. Mentorship is requested in small, answerable pieces.
Supportive colour: yellow — wear or use it on Thursdays.

Your gemstone card — for Sun (the stronger of your two career pillars, Sun for authority and Saturn for service: Sun in Cancer (house 11))

Stone: Ruby (Manik) · Metal: gold · Finger: ring finger · Day to wear: Sunday · Traditional weight: 3.25 to 5.25 carat.

Traditional information, given because a complete report includes it. A gemstone is optional — never required, and never a substitute for preparation or applications. If you choose to wear one, take a suitability opinion from a trusted astrologer first and buy only certified stones.

SECTION 09 · THE PLAYBOOK

The Practical Career Playbook

The chart chooses direction and seasons; this page does the rest. Whether you are searching for a role or growing inside one, the discipline below is the part entirely in your hands — and it is deliberately fitted to your chart:

- Resume — one page of proof: your Mercury (house 12) runs your documents. Keep one master resume where every line carries a number, a result or a named skill; tailor the top three lines to each application. If a line cannot be evidenced in an interview, it does not go on the page.
- Skill — one at a time, finished: pick the single skill your Section 05 fields reward most, and finish it — course completed, certificate filed, project shown. Your current period favours depth over breadth: one finished skill outranks five begun ones.
- Follow-up — the forgotten half: every application gets a diary entry and one polite follow-up at ten days. Most candidates never follow up once; a chart with your 11th-house pattern (Section 03) wins disproportionately through people who remember your name.
- Interviews — rehearse out loud: three questions cover most rooms: tell me about yourself, why this role, and your hardest problem solved. Rehearse them aloud, timed, twice before every interview. Arrive rested — your Moon (Section 02) is read on your face before your resume is read at all.
- Examinations — treat the calendar as the syllabus: if you are preparing for competitive or government examinations, build the year backwards from the notification: syllabus finished once before the form opens, revision during it, mocks after. Your 6th-house engine (Section 07) rewards exactly this structure.
- Negotiation — written, calm, late: discuss salary after the offer, in writing where possible, with your current number and your walk-away number decided before the call. Never resign on a verbal promise.
- Fraud — the non-negotiable page: no genuine employer charges a fee, sells a "training kit" as a condition of joining, or asks for your original certificates, a blank cheque, or an OTP. Verify every offer on the company's own website and official email domain; if money is requested at any point, the job does not exist. Report such approaches and move on — your effort belongs to real doors.

YOUR NAME — YOUR ACTION POINT

This week, do the three small things: update the master resume, enter every live application into a tracker with a follow-up date, and book your daily preparation block in the calendar. Small, dated, done — that is the whole playbook in one line.

SECTION 10 · YOUR PLAN

Your 30-60-90 Day Plan

Your current period is Jupiter–Venus, rated Supportive for general indications and Supportive for career activation by the rule in Section 06. Here is how to use the next ninety days:

- Days 1–30: read Sections 03–05 once more and choose your two field directions. Update the master resume (Section 09) and begin the Mercury practice on its start date in Section 08.
- Days 31–60: run the follow-up discipline — every live application tracked, every follow-up sent on its date. Finish the first skill block you chose, or sit the first mock examination of this cycle.
- Days 61–90: review against your timing table. If you are entering a Supportive window, widen the push deliberately — more applications, examinations entered, interviews sought. If a Demanding stretch is ahead, bank preparation — qualifications, portfolio, buffer — without reading it as a verdict.

How your report was calculated:

Planet positions: Swiss Ephemeris. Ayanamsha: Lahiri (Chitrapaksha). Houses: whole-sign from the ascendant. Divisional chart: standard Parashari Dashamsha (D10). Periods: Vimshottari dasha from the Moon's nakshatra; transits from the same ephemeris. The job–business lean, the authority patterns and every timing rating are computed by the rules printed in their sections, from this chart alone. Interpretation follows traditional Jyotish rules and points to tendencies and periods, not certain outcomes — in particular, this report does not and cannot guarantee a job, a government post, an interview call or a joining date. A job comes from your qualifications, your preparation and your effort; this report is astrological guidance for direction and timing — not a substitute for your own judgement or professional career advice. If your birth time is approximate, sections that depend on the ascendant are less certain; write to
